K.D. Foods × PepsiCo — Meeting Brief

Date: _____ **With:** _____ **From K.D. Foods:** Mehul, Shobhit

Area: Bhilai 3 · Hathkhoj · Kumhari **Fleet:** 3 electric vehicles (120 cases each, up to 2 trips/day)

1. What we want from this meeting

1. The **₹11 per case support** confirmed **in writing**: which products, how it is paid, and on what conditions.
2. The **final price list** and invoice terms.
3. Clear terms on **credit, returns and territory**.

2. Our numbers

Monthly fixed cost: ₹1,70,000
(EMI ₹25,000 · Drivers ₹45,000 · Helpers ₹30,000 · Manager ₹20,000 · Director ₹30,000 · Misc ₹20,000)
Plus loading ~₹1.25/case and cash discount ~₹0.70/case.

	Without support	With ₹11 support
Average margin per case	~₹24.5	~₹35.5
Cases/month to break even	~7,500	~5,100
Profit at 10,000 cases/month	~₹35,000	~₹1,40,000

Without the support, the business is thin. Our biggest item, Aquafina 1 L, earns only ₹19 a case.

Capacity: 3 trucks × 120 cases × 2 trips × 26 days = **~18,700 cases/month at most.** The 2 lakh cases a year estimate (about 23,000/month in season) would need more vehicles.

3. Margins by product (invoice of 30 Oct)

Prices went up **~₹5 per case** between the 29 Oct and 30 Oct invoices.

4. Questions

₹11 support

#	Question	His answer
1	Is it on **every product** (incl. cans, Tropicana, Gatorade, Creambell, Aquafina)?	
2	Per case **bought** or per case **sold**?	
3	**How is it paid**: on the invoice, or credit note / cheque later? How often, and how many days after?	
4	Any **monthly target** to earn it? What if we miss it?	
5	**How long** does it last: permanent, launch offer, reviewed each season?	
6	Will it be **in writing** (on the invoice or a letter)?	

Prices and schemes

#	Question	His answer
7	Why did prices rise ~₹5 per case between the two invoices? How often do they change?	
8	When will we get the **final price list**? Will it show the ₹11?	
9	Do **schemes** (Aquafina ₹5, BOGO offers) come **on top of** the ₹11?	
10	Any **rule on our selling price** to shops? Can we sell below trade price?	

Volume, territory and terms

#	Question	His answer
11	The **2 lakh cases a year** estimate: which areas is it based on?	
12	Is the territory **exclusive** to us?	
13	**Credit from Pepsi**: how many days to pay?	
14	**Returns and breakage**: what does Pepsi take back (damaged, expired)?	
15	**Minimum order size** and **delivery days** to our warehouse?	
16	**In-season support**: extra stock, credit, vehicle, coolers?	

5. What we will ask for

1. **₹11 support in writing**, on **every product**.

2. **Higher support on low-margin items:** Aquafina 1 L and 500 ml, Slice Tetra, Nimbooz (e.g. **₹15** on Aquafina).
3. **Credit days** that match what we give shops (**7 days**).
4. **Exclusive rights** to Bhilai 3, Hathkhoj and Kumhari.
5. **Launch support:** free stock, display material, coolers for new shops.

Our bottom line: if the support is less than ₹____ per case, or comes with conditions we can't meet, the plan needs to be rethought.
